MEMORANDUM FOR: Executive Assistant, DDA

FROM:
Director of Logistics

SUBJECT: Reimbursement for Certain Detailees

1. The attached provision before Congress concerning Reimbursement for Certain Detailees presents no anticipated unusual problems for the Office of Logistics (OL). However, the following are some general comments from OL concerning the provision.

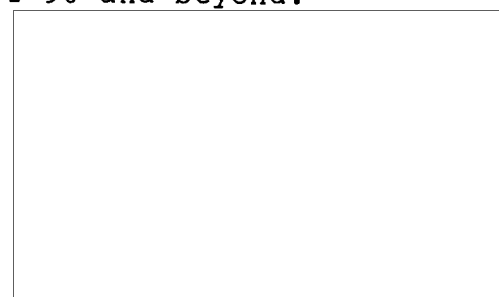

2. In several cases, sending a detailee to a receiving organization is often for the greater benefit of the detailing Agency. It does not seem appropriate that the receiving Agency should be required to pay in all instances, especially in cases of mutual benefit or greater benefit to the detailing Agency.

3. Reimbursement for detailees in all instances could possibly present problems if it leads to exposing key relationships. The result could be a threat to our intelligence mission.

4. Reimbursement for detailees beyond 60 days may erode the spirit of sharing of in-house government expertise and may result in unnecessary contracting for services.

5. This provision apparently only applies to FY 89. It is unclear what is being proposed for FY 90 and beyond.
